

## **Intermediate / Senior Environmental Consultant**

### **Make a Big Difference with Earth Systems!**

**With offices in Toronto, Melbourne, Sydney, Shanghai, Vientiane (Lao PDR), Dakar (Senegal), and Bristol, Earth Systems is a growing environmental and sustainability consulting group that is seeking highly motivated, ambitious professionals who are passionate about their work.**

### **A great opportunity to help develop and grow the Toronto office .**

The company provides specialist advice and hands-on capabilities in a diverse range of areas related to environmental management, and develops and implements innovative and effective environmental, water, energy and sustainability solutions.

We are currently seeking to employ environmental professionals with experience in environmental and social impact assessment, environmental management and approvals to join our team and help develop and expand our business. In this role you will be responsible for working on projects for a wide range of public and private sector clients both domestic and overseas. There are opportunities for people with a few years of experience through to senior partnership level.

The successful applicant will:

- Have relevant tertiary qualification(s);
- Have a minimum of 3 years of relevant experience which may include the fields of EIA, environmental permitting/planning, ecology, environmental engineering, water management, hydrogeology, social/health assessment, and/or environmental chemistry;
- Be able to demonstrate leadership capabilities across the spectrum of their responsibilities;
- Be able to identify and develop new opportunities for Earth Systems;
- Have the ability to work effectively within a multidisciplinary team;
- Have exceptional written and verbal English language communication skills (proficiency in a second language (particularly French, Spanish or Mandarin) will be highly regarded);
- Be passionate about the environment; and
- Have interest in / be able to travel internationally.

Previous EIA experience in relation to infrastructure, resources and other large scale projects will be highly regarded.

The position will be based in the Toronto office, with significant opportunities to work overseas. An attractive salary package will be provided depending on experience.

Interested applicants should submit their resume to [kate.wallace@earthsys.ca](mailto:kate.wallace@earthsys.ca).
